City Council Has Rest From Stormy Sessions

Flood Work Progressing, Bond Election Underway

The regular meeting of the City Council, with all councilmen present, held Tuesday evening, September 11, was termed one of the shortest meetings of the year, when from opening of the meeting with requests as they emanated until adjournment saw but one hour and ten minutes elapse.

Parade

Warrants for the amount of \$27,433.23 were ordered paid, after which the request of the Veterans of Foreign Wars, asking for permission to hold a parade and flag pole dedication on November 17 was given approval and referred to the police department for satisfactory routing. Two routing were suggested, one of which would start at Mariposa and Lima down Sierra Madre Blvd. to Baldwin, up Baldwin and disburse in that area. Number two was starting at the same point, routing the same but to the swimming pool for disbursement. Length of time of the parade was suggested from one and a half hours to two hours. The Council recommended that the parade be limited to 45 minutes, this point to be discussed and worked out by Councilman Abernethy, who is the City Council's representative to the affair, and the VFW.

Petition

A petition containing 27 property owners names was submitted to the council concerning the noise and odors of the Sierra Engineering Company. The matter was referred to the City Attorney Martin to determine the proper time to operation and the noise level that would be allowed. Sierra Engineering was to be notified and ordered to comply.

Lee Shippey Writes On Baseball

Most of us are pretty much confused about Ben Kheda and Ben Bellah but one thing seems sure. If they don't learn to harmonize they are likely to become a couple of has-bens.

The University of Redlands announces it is planning a foreign campus, not in France nor Germany, but in Rome nor Athens, but in Mexico. That seems to be a most intelligent idea, just as interesting and fascinating as any foreign campus and far more practical, for Californians, than most of them are. Mexico certainly is California's closest foreign neighbor, and as the late Harry Carr put it, Mexico is the mother of California. We are becoming increasingly associated with Mexico both socially and commercially. For years many American college students have been attending summer school at Mexico's national university and the average citizen of California has ten times as much need of a knowledge of Spanish — spoken as Mexicans speak it — rather than with the Spanish lisp — than he will ever have of Greek, Latin or even of any European language. Can it be that even our college faculties are getting educated to the facts of life?

Sunday used to be a day of rest, when we could sleep late and take it easy all morning. But now the Sunday newspapers are so big we have to arise at dawn.

Last Day — September 13!

If you wish to cast your ballot on November 6th, and it is necessary for you to register, or reregister—Today, Thursday, September 13, is the last day.

There is no more important function in our Free Society than that of voting. The will of the people, expressed through their votes, is democracy's most potent force. It is a militancy of freedom against which no would-be aggressor can prevail. Let us do all we can to reduce the number of citizens who disenfranchise themselves by failing to register. — Remember, today is the last day—September 13.

Sierra Madre Is Marching Forward

By John H. Curtis
President Sierra Madre Chamber of Commerce

In the Pasadena Independent and Star News of September 8, there appeared a lengthy two column article by Pauline Collier, under the derogatory heading, "Sierra Madre, 'Sleepy Village,' Hopes to Awake." Under no circumstances can I allow this slanderous article to go unanswered, which, with its unjustified conclusions and statements at such variance with true facts, which is a reflection on the honesty and integrity of the Independent and Star News.

Here's one paragraph of the Collier article, verbatim: "With the exception of a few new stores and modernization jobs, there has been little major change in the downtown district in years." Let's see how this matches with the truth.

In using the words "in years," the implication is that during the last ten or fifteen years little of anything has taken place to improve the appearance or character of our business district. Here are the facts: Within the last half dozen years or nearly so, which is far from YEARS, Sierra Madre has had built in its business district a fine new hardware store, a new drug store, a new bank building, a new medical building, a modern hospital, a convalescent home, two new store buildings with three stores each plus offices, a fine new office building with many offices, a new jewelry store building and a fine new post office building. Does this sound like Sierra Madre has been asleep with little of anything being done here in years?

And now for the almost-nothing-being-done-in-modernization charge. Both of our two modern food markets have been greatly expanded and improved with the latest modernization equipment, one of our fine hardware stores in addition to the new one has been expanded and modernized, a first class coffee shop and restaurant has been modernized and installed, a smaller coffee shop modernized, a flower shop, toy store, the Edison office modernized, drapery store improved, a new furniture store modernized by a new firm, a modern automatic wash-dry laundry installed by a new firm, a department store, drug store, young men's store, youth store, shoe store, travel agencies and others all modernized. Many new businesses have located in Sierra Madre in the last two years.

During this time the city has built and paid for a fine new library building and a fine municipal plunge and bath house. Beautiful, modern new street lights have been installed in the business district barely a month ago. There have been so many new buildings and so many modernizations of stores that people who formerly lived here, when returning after a few years absence, have said that they hardly recognized their former city. And still, the Pasadena Independent and Star News and Pauline Collier call Sierra Madre a sleepy little village.

Does Collier and these newspapers infer that we should take on some aspect of Las Vegas night life? The people of Sierra Madre clearly have no need of taverns and night clubs and the kind of businesses that keep people awake at night. Indeed do we have our rightful share of churches — two new church buildings — service clubs, civic organizations, fraternal orders, art groups, and many others. After business hours — after nine o'clock Friday evenings — except for school meetings, women's clubhouse meetings, restaurants that keep late hours, an occasional play put on by the Sierra Madre Players, attendance at our theater or the Friday evening band concert in the park, and so on, Sierra Madre residents are well content to enjoy the quiet privacy of their fine homes, the company of friends, neighbors or relatives. If it takes this to make Sierra Madre a sleepy little village, so be it. Yes, we are still proud of it just that way.

During this period of so-called do-nothing-that-is-modern scores of exclusive and fine apartment buildings and fine residences have been built and scores more of homes have been rebuilt and modernized. All should remember that Sierra Madre is nearly eighty years old, does not have limitless room for expansion and doesn't want it. We ARE continually growing, even so, growing in population, in business done, in fine new and newly modernized store buildings, apartment buildings and fine homes. A sleepy village? If so, it would appear that we have been doing quite a little bit of growing while we slept, wouldn't you say?

The Chamber of Commerce of Sierra Madre is now stronger than ever before and has nearly one hundred members. Compare this with any other city our size. The Collier article did concede that our business is growing, evidenced by our sales tax return to the city which has grown from \$42,000 to over \$50,000. Business is on the increase for all business which this writer has been able to interview, Sierra Madre postal receipts have steadily increased for years — in the last seven years have doubled.

How can business be increased in Sierra Madre? Certainly not by lending any form of encouragement to such newspaper balderdash as the Collier article published by the Pasadena Independent and Star News. Thank God, we have a newspaper in our city, The Sierra Madre News, which pulls for progress and prints the truth about what is happening here. This newspaper has done and is now doing a super job of helping to build this into a still more prosperous and still more delightful city to live in. I personally recommend stronger support of this progressive newspaper by local merchants in bringing their shopping news to the people of this area. This is an opportunity that merchants can take immediate advantage of in boosting their business.

Build new store fronts? Certainly. We ARE doing just that in a magnificent manner at this time. And now, one last word, to the people of Sierra Madre, merchants and residents alike. To all residents in this area: Let's do more trading with the merchants of Sierra Madre. You can save time and save money by trading with them and in turn boost Sierra Madre business and Sierra Madre income through sales tax. And now, to the merchants: Let's tell the people of this area more repeatedly and in stronger print than ever before what shopping opportunities they have right here at home, with handy, at-the-merchant's-door parking.

Yes, more than ever before, let us all prove to the world that we ARE a prosperous, progressive, thriving city, growing still more prosperous EACH and EVERY year. We can do this by working together, pulling together and advertising to the world what we have to be proud of — what we have to sell.

PRESENTING trophy to Stan Smith, left, recent winner of the Sierra Madre Tennis Club's Elimination Tournament is Larry Morse, last year's winner. Smith beat Morse in the final match of the tournament.

A Rough One To Win

Two Foot Trophy Given Stan Smith For Victory

A two foot trophy has been placed in the hands of Stan Smith for his victory over Larry Morse in the hard fought final match of Sierra Madre Tennis Club's Annual Elimination Tournament.

"Morse led 2-0 in the final set," reports club activity chairman Frank Green, "after aching Smith four consecutive times, but Smith was more consistent on placements and fought back to win."

Score for the match was 6-2, 5-7, 6-4.

Although Morse was last year's winner of the tournament, Smith was favored by many to win this year because he defeated Morse in a previous match.

Both Morse and Smith have been "First Man" on Pasadena High School's tennis team.

The two men's athletic records show that Morse was 1960 All County Diving Champion and that Smith was a letterman on PHS's "B" basketball team and

winner of the Pasadena Closed Junior Championships.

Smith commented that his match with Morse was a rough one.

He also said that he hoped to "win again next year."

Morse stated that he "couldn't have lost to a better man."

He added that he plans to regain the trophy next year.

Smith will be in the 11th grade at Pasadena High School and Morse will enter Pasadena City College.

The Public Service of Dedication is scheduled at 3 p.m. An invitation to this service has been extended to all congregations of the Lutheran Church — Missouri Synod in Southern California. A refreshment and fellowship hour for all guests is planned from 4 to 5.

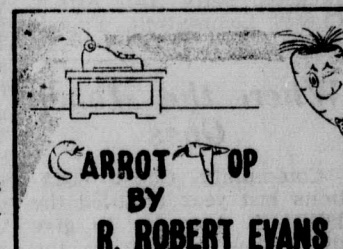

The public is invited to attend any or all of these dedicatory events.

1st Child For Christensens

Mr. and Mrs. William (Kathy) Christensen of 174 S. Sunnyside announce the arrival of their first child Edwin Michael born at St. Luke's Hospital, Sept. 9, and weighing in at 8 pounds, 6 ounces.

The young man's proud maternal grandparents are Mr. and Mrs. Louis J. (Ruth) Sauter of 174 S. Sunnyside. His paternal grandfather is Mr. Edwin Christensen of Boise, Idaho.

Mrs. Sauter is a fourth and fifth grade teacher in the Sierra Madre School and Mr. Sauter teaches school at Mt. Gleason Jr. High School in Los Angeles.

We have Labor Day all over with and neatly tucked away for another year. I just wish that I could get some cooperation from wife Peggy and Junior and get the Evans' Labor Day out of the way. Perhaps we could settle down and look with great anticipation to a grand and glorious Thanksgiving Day.

Speaking of Thanksgiving — have you placed your order for that Thanksgiving Turkey as yet? — remember, the early orders get the best bird.

And, while we are on the subject, do you realize that it is only 86 more shopping days until Christmas, and me without my shopping list completed — gee, how time flies, seems that it was only the first of this month that I completed paying for last Christmas bills, or was it the Christmas before; anyway creditors seem to be quiet for the time being.

School is well on its way, and again we caution you about your driving. Do be careful, our children are going to need their education to cope with the problems of administration that we are going to leave them — do be extra careful.

And while on the subject of Administration, we do want to say that we have an outstanding group of City Administrators. Our Councilmen are serious and active, but still with all the seriousness, a bit of humor creeps into the sessions. I was quite amused the other night when Councilman Sorenson asked how many would like their taxes increased 1 cent for the Library fund, and received quick response out of those present, and again when discussing Flood Control he told a certain contractor that the trouble that was now being felt was because of the leniencies given sub-dividers. Every so often the general public gets a sudden jolt. It certainly shows that our Councilmen are in the "know" and on the "ball."

Having devoted some eight years to this thankless job, I know a little of which I speak, and further I knew, and I am sure they knew, that when they placed their names before the voters of this community, that should they be elected, that the job would be a "thankless" one, but they knew full well that all of us should devote some of our time to our community, and these years happen to be their turn. They are outstanding citizens trying their best to do the "Best" that is within their belief — If you think you can do better, well — there will be an election this spring and you can have your chance.

Here is an item that will not hit the society page — the employees of the Sierra Madre News decided upon a stork shower for yours truly — and I do

Where the Money Goes

Community Chest donations last year enabled the TWELVE Agencies to give the following help to the people of Sierra Madre: Children's Hospital admitted seven children for a total of 47 days hospital care and 35 for clinic treatments. Orthopedic Hospital gave 42 clinic treatments.

Visiting Nurse helped 131 with nursing care and 13 therapy cases. Fee is \$6 per visit and 65% was paid by patients.

Family Service had 158 cases at \$17.50 per visit, the patients paying part and Community Chest the balance.

In all these health services the Chest underwrites the cost of the service, recipients paying as much as they can; the Chest the remainder.

More About Shippey

if we hope to read more than half the important news and comment in them. I don't like to see political rivals digging up dead cats to throw at one another. I think politics could be greatly cleaned up and improved if operated as baseball games are—the rivals alternating at taking turns at bat. As it is now, the party which wins puts in more effort and schemes to build up machines and win the next election than on serving the public. But if terms in office alternated as turns at bat do in a ball game the winning party could bend all its efforts to make such a record for progress and service that it will be one to be proud of.

And baseball proves that the outstanding heroes and great teams would be long remembered, just as every day now baseball fans talk with awe of Babe Ruth, Lew Gehrig, Lefty Grove, Christy Mathewson, Dizzy Dean and many others—and no members of opposing teams try to smirch their records. Mighty few politicians of 40 years ago are remembered with the awe and reverence that baseball fans cherish for Ty Cobb, Even Washington, Jefferson and Lincoln had shameful smears flung at them and never, in their lifetime, enjoyed the universal admiration that a great ball player enjoys. Doesn't that prove that our system needs improving.

Your City

ting and filling, better grouping of the buildings and leaving of green areas, higher assessed valuation and lower ratio of school-aged children, thereby saving school taxes. The opponents argued higher per capita costs, more traffic, greater drain on our water supply, inadequate streets, reduced property values in surrounding area, probably as much cutting and filling with no saving in esthetic appearance and impact on the community from large influx of apartment dwellers, who are not active in the community.

At the close of the first hearing, the Planning Commission requested additional specific information on potential traffic, assessed valuations and comparative cut and fill plans. After three long and well attended hearings, the Planning Commission split 3-3 on the vote and the matter was referred to the City Council. The City Council considered the matter at another public hearing and denied the request.

This proposal was interesting in that it involved a large piece of ground, a large number of property owners, the change proposed was substantial, the entire community would have felt a real impact from the added number of people, the assessed valuation and spending power as well as the added number of vehicles and the drain on other city resources. Economists indicate that there will be increasing pressure in the Los Angeles suburbs for apartment buildings and smaller lots, and an application such as this could have caused a major deviation in the direction Sierra Madre would take.

**Family Night At

The first Family Night of
the Fall season will be held
at the Congregational
Church this coming Wednes-
day, September 19th, in
Pritchard Hall. Mrs. Louise
Wain, director of Christian
Education, assisted by sev-
eral members of the teach-
ing staff, will present a pre-
view of the materials to be
used in the Fall curriculum
in the church school. Theme
for this Fall in all classes
is "The Church."
The supper is held in
Pritchard Hall at 6:30.
Everyone is invited to at-
tend, bringing a hot-dish
and table service. Those
whose names begin with A
through L will bring salad;
M through Z will bring des-
sert.

**Methodist
Notes**

Sierra Madre Methodist
Church will have the Church
School registration next
Sunday morning, 9:30 to
10:30. All the families who
hope to have their young
folk in the Sunday School
should participate in this
registration which will be
located on the front porch
of the parish house.
The indications already
point to a large enrollment.
This means pressure for
room space which, at some
points, may call for chang-
ing original plans in the lo-
cation of classes. The lead-
ers need to have the mea-
sure of this problem as
fully as possible next Sun-
day. Your cooperation in the
registration will do it.

Lesson-Sermon
Sunday, Sept. 16**

Featured in the Bible se-

passages from the Book of

"Who is a wise man and
endued with knowledge
among you? let him shew
out of a good conversation
his works with meekness of
wisdom. . . And the fruit
of righteousness is sown in
peace of them that make
peace."
The following will be read
from "Science and Health
with Key to the Scriptures"
by Mary Baker Eddy (p.
467): "It should be
thoroughly understood that
all men have one Mind, one
God and Father, one Life,
Truth and Love. Mankind
will become perfect in pro-
portion as this fact becomes
apparent, war will cease
and the true brotherhood of
man will be established."

American Legion is not just a social group, men and women sitting around discussing the wars of the past. Rather The American Legion is a great organization with serious purpose. Legionnaires have fought in three great wars in the past four decades. Now we are confronted with the danger of the most devastating, the most horrible war in the history of mankind.

Stop Getting Up Nights

Doctors say true kidney trouble is not the most frequent cause of getting up nights, backaches, painful passage, strong or cloudy urine. Often these symptoms may be due to functional trouble elsewhere in the urinary system. Then what may be needed is a medicine that works three ways. DI-URI-FORM is sedative to calm and soothe the irritated tissues, while acting as an anti-septic in the urine to attack certain harmful bacteria. And, DI-URI-FORM is also a gentle diuretic to help speed up the urinary flow. DI-URI-FORM, the 3-way urinary medicine is now available for your convenience in two easy to take forms. Liquid or tablets. Only \$1.50, plus sales tax. Your complete satisfaction guaranteed or your money will be refunded.

There is nothing quite so heart tugging as the look of a little boy going off for his first day of kindergarten. His hot moist little hand tucked in yours, his back held stiff and brave, a round look of wonder and apprehension in his eyes, his whole little being struggling with the wanting to go forward and still wanting to stay back in protective custody. It's a step toward independence and being a man. I often thought what a wonderful day it would be when I sent my last one off to school. It isn't wonderful at all. From now on the spontaneous hugging and I love you's will come less often and with more embarrassment. You stand alone with empty arms knowing that a last you too must go forward as a new need for guidance will come and you must be ready and able to fill it.

Gene and Nancy Rode of Fairpoint just couldn't understand why their neighbor would dash in for a cocktail and then proceed to help tidy up the kitchen. Little did they know that they were to be the subjects of a delightful surprise housewarming party. The party was planned by Betty and Allen Stearns, Pat and Chuck Eidson, Betty and John Redmond, and Mary and Bill Taylor. They all came booming in with chairs, food, drinks, and a huge, huge gift, which upon being opened turned out to be the most elegant shuffleboard set you've ever seen. In addition they were given a check to cover the cost of the necessary cement work. The group couldn't have chosen a gift that would have been more appreciated. The Rodes have named their back yard the "Jr. Sports Arena." They have already put in regulation horse shoe pits and a badminton court. The future plans include, in addition to shuffleboard, a table tennis area as well as a five hole putting green. Guess where all of the neighborhood children can be found?

The other guests were Phil and Charlie Hardison, Edna and Bob Meason, Pat and Don Giangregorio, Gae and Bill Winn, Joyce and Bill Holl, Gerry and Al Dunn, Jeanne and Mat Slavvin, Carmen and Bob Farmer, Ethel and Don Hays, Peg and Ken Christianson, Sally and Alkman Armstrong, Nancy's mother, Mrs. F. L. Cochran, and Gene's parents, Mr. and Mrs. George Rode.

To see the world with the eyes of a child and the wisdom of grandparents. Such is a trip that Mr. and Mrs. Don Jaxheimer took with their grandson, Bryan Winchester this past month. They took him up through

the Bishop area and Reno, and then on to Lake McDonald to stay at a beautiful hotel. They went on the "highway to the sun" carved out of sheer rock on a mountain side, and then to Calgary. They stayed in a Chateau at Lake Louise and then went on to a little talked about hideaway at Lake Moyle near Cranbrook, B.C. There they found an authentic Swiss Chalet nestled in all of the mountains with all of the charm and quiet of those across the sea. Mrs. Jaxheimer said it was very difficult to tear themselves away and face the reality of the hum drum life of the city. They came on down through Perleton, Oregon where they visited relatives with a little 20 mile ranch. Bryan has become quite a movie camera fan and has recorded the entire trip, much to the delight of all of his relatives.

The start of school also spells out the start of clubs and meetings again. The Villa Guild of the Rosemary Cottage will hold its first board meeting with its new board at the home of Mrs. —Please turn to Page 8

Judith Summers Finishes Training
Miss Judith Summers, 23, daughter of Mr. and Mrs. Edward Summers of 155 W. Grand View, who was selected to serve in the United States Peace Corps, has finished her two months training course at the University of St. Louis in Missouri, and is now attending her indoctrination course in Puerto Rico near Arecibo, about 65 miles from San Juan.
Miss Summers has lived in Sierra Madre since she was 7 years of age, attended Sierra Madre Schools, Wilson Junior High School and graduated from Whittier College, where she majored in psychology.
She will return home for a ten-day leave on September 22. The first of October Miss Summers will fly to Las Ciega on the north coast of Honduras with 27 other Peace Corps workers assigned throughout the Central America area.
Miss Summers will do social welfare work with her immediate group.

Burke Boys Enter College
Bill and Bob Burke, sons of Mr. and Mrs. James D. (Ann) Burke of 189 N. Cañon Ave., left here this week to enter the University of Santa Clara.
Bill, 21 and Bob, 19 both economic majors have each won scholarships of \$900 a year at results given by the California State Scholarship Commission.
Bill will receive scholarship for his junior and senior year. Bob who had the scholarship for his freshman year will receive scholarship for his three remaining college years.
Another brother, Bud, 17, left September 10 for his freshman year at Notre Dame. Bud is also a business major. Daughter Bonnie, 14 will be a first year student at Mt. Alverno this year.
Jim and Ann, with Jim's brother Frank honored Bonnie, Bud, Bill and Bob with an evening in Hollywood before their departure for the school year. The family enjoyed a continental dinner at the Grenadier on Sunset Strip and evening performance of the famed "Music Man."

Services for Eddie F. Gourdin
Services were held at St. Rita's for Eddie Frank Gourdin, 64, who died September 4 after a lengthy illness.
Mr. Gourdin, formerly of Sierra Madre, last resided at Olive View Sanitarium. His lifetime was spent in California.
Rosary recitation was Thursday at 7:30 p.m. and Requiem Mass was Friday at 8 a.m.
Interment was at Resurrection Cemetery in South San Gabriel. Rippe Mortuary handled the arrangements.
Mr. Gourdin is survived by his sisters, Mrs. Marion Dawson of Arcadia and Mrs. Carmel Johnson of Monrovia and his brothers, Henry Gourdin and George Gourdin both of San Francisco.
He joined a continental dinner at the Grenadier on Sunset Strip and evening performance of the famed "Music Man."

Drive Carefully!
Been accustomed to driving through deserted school zones all summer?
Then take it easy, because the children have returned.
With the opening of school, thousands of young pedestrians and bicycle riders once again will appear on streets and at crossings which you may be used to seeing empty.
Slower speeds and a lot more caution are necessary. Remember, too, that youngsters often forget about automobiles, especially during the early days of the school year. They may run from behind parked cars, or zoom from driveways on bikes.
Be particularly watchful in and near school zones, where children may be alighting from buses or cars.
Your care may prevent some family a lifetime of grief.

CARROT TOP
mean a real honest to goodness Stork Shower — a cake with a stork perched thereon and presents galore, and each and every one of them as useful as could be — to each of them I give my wholehearted thanks — Uncle Sam also will give me a nice little gift of \$600 exemption — on the other hand I have noticed in last week's issue of the Sierra Madre News where each man, woman and child has a tax bill of \$877.38 for the year — I do feel kinda sorry for this young sprout — he or she will get started mighty late in the year to pick up this kind of money — quite a problem, I would say.
Problems — we had over three hundred answers to the one about the cow and how many square feet he had to graze — so her's another one, and as usual, two free one-year subscriptions to the first two correct answers.
The cold water tap in a bathtub can fill the tub with water in six minutes and 40 seconds. The hot water tap can fill the tub in exactly eight minutes. The tub, when filled, will empty in 13 minutes and 20 seconds when the stopper is removed. How long will it take to fill the tub if both taps are opened and the stopper is removed? I have the answer but couldn't work out this one — let's hear from you.
In closing this week's column, I have a little advice for those who may be in the need of additional capital for operation. It is my thinking that you could solve your situation in the same manner as one of our friends solved his particular situation. It seems that this friend needed a \$3 bus ticket, but he had only a two-dollar bill. To solve his predicament he took the \$2 bill to the pawn shop and pawned it for \$1.50. He then took the pawn ticket and sold it to his friend for \$1.50 and bought his bus ticket for \$3 — seems to me that this has merit . . . as soon as I have time I am going to settle down and work this one out . . . in the meantime, please remember . . .
"The sun shines after every storm; there is a solution for every problem; and the soul's highest duty is to be of good cheer." . . . See you around, I hope, I hope, I hope.
PLUMBERS MET

12 Races Daily Los Angeles County Fair Opens Sept. 14 to 30

With all signs pointing to the most successful meeting in its long history, the Los Angeles County Fair opens the 1962 horse racing season Friday, with the \$7,500 added California Thoroughbred Breeders Association Marian Stakes highlighting the opening day card of 12 races. Post time for the inaugural card will be 12:30 p.m., a time which will prevail daily with the exception of the three Saturdays when the first field will leave the barrier at noon. There will be a total of 14 days of racing, Sundays being the only dark days.
There will be 12 races daily, the first two being devoted to harness racing, the third and fourth to quarter horses, the balance to the thoroughbreds.
One of the new features on tap for Pomona racing fans this season will be the daily double. This betting method, now a fixture at every track in California, will be held on the fifth and sixth races daily, thus giving late arrivals plenty of time to participate.
Thanks to the unprecedented success of last year's meeting, when all previous attendance and wagering figures were shattered, the Fair this year will offer purses to horsemen totaling \$451,000, also a new record. Most of this will go to the thoroughbred division, although both the harness horse and quarter horse campaigners will have richly endowed prizes awaiting them.
Most of the outstanding horses which have been racing all summer at Hollywood Park and Del Mar, together with several stables from out of state and from the State Fair meeting at Sacramento, will be on hand for the Pomona meeting, which rings down the curtain on thoroughbred racing in Southern California until the opening of Santa Anita late in December.
A new topper of \$82,500 in stakes events has been established, with the \$20,000 added Pomona Handicap on closing day, Sept. 29, high-lighting the stakes schedule. This race annually attracts the finest horses in training in California, but it reached a new eminence last year when the winner, Lynn Boice's Physician, went on from that triumph to defeat the nation's finest thoroughbreds last spring in the \$100,000 added Santa Anita Handicap.
The Home Furnishings Show is open from 1 p.m. to 11 p.m. and Von's and Shopping Bag markets are available at the check-out counters at all stores in the chain. The special discount tickets are available only at Von's and Shopping Bag markets, it was announced.
Fred Van Winkle, son of Mr. and Mrs. Seth Van Winkle of 252 Ramona in Sierra Madre, is vacationing in Honolulu and upon his return will enter his junior year at Los Angeles State College.
Fred's mother, Josephine Van Winkle, also is out of town. She is visiting in Carriazo, New Mexico.

Edward Halperin of Old House Road on Monday, September 17 at 10:30 a.m. The hills of Kinneloa Mesa rang with laughter and singing last Saturday as the Kinneloa Mesquite got together for their annual swimming party and bar-b-que. There were more than 130 men, women and children participating in the fun this year. They started out at three in the afternoon with swimming in the pools of the J. C. Wilfongs, the Herman Finks, and the William Morses. A bar-b-que steak dinner was served around six in the Richard Davidson patio on Meyerloa Lane. Each couple brought extra delicacies to accompany the steaks making it a meal fit for kings. There was plenty of draft beer for the adults and soft drinks for the juniors. During the evening the young people were shown movies

SYcamore 8-4777

An atmosphere of corn patch and mountain dew prevailed at Las Campanas HILLBILLY party Saturday night. Marie Walsh and Marilyn O'Donnell made sure of this by ample use of sawdust on the floor, plus fertilizer bags and animal pelts around the room. Jean Nikola was in charge of the food served at the colorful checkered cloth covered tables. Marty Newton and Helen Fay looked fetching in quaint square dance dresses. Most appropriate too, with excellent square dance callers present they could relax during the twist session. Bud Newton and Don Munro clad in overalls and toting jugs looked like mountain fud'n' boys. Neil Rowley went all out in crazy combination of jeans and Japanese smoking jacket, while his wife, Marge was equally kookie in red striped T-shirt, garishly bejeweled and with purty straw hat topped by dancing roses.

Party chairman, Emily Morzov was a gay Daisy Mae in off the shoulder red polka-dot. More "hillbillians" included Peg and Ken Christanson, Gerry and Al Dunn, Helen and Jim Fay, Pat and Dom Giangregorio, Ethel and Don Hays, June and Robert Hunt, Betty Jean and Guy Knudsen, Mary and Don Munro, Gloria (in white fluffy dress and Mary Pickford type blonde wig) and Malcolm Murison, Jeanne and Forest Paxson, Robbie and Al Pruitt, Phyl and Jim Wentz, Marie (in black chiffon cocktail dress held together with safety pins and feet clad in tennis shoes) and Tom Walsh, Eleanor and Keith Stiles, and Janet and Ray Cox.

Local water skiing pros prefer the facilities at Mission Bay to any other, they tell me. Eleven families spent weeks, prior to the opening of school, in the sun and surf near San Diego breezing along behind one or another of their assorted boats. As a matter of fact, most of them have advanced to ONE SKI. There were nearly 40 children enjoying this somewhat strenuous holiday — plus the following parents: Nita and Warren Bacon, Flo and Ed Barnes, Sue and Joe Cummins, Marguerite and Jack Horne, Barbara and Gordon Hyde, Aleene and John Hedrick, Lesley and Phil Shepherd, Jean and Jack Stefens, Dolores and David Zinsmeyer, Ce Sweet and Nita David.

Some of the group decided to go south of the border to see the bull fights. A wild hair-raising taxi ride from Tiajuana to the bull ring eight miles away, nearly proved their undoing. Long before the event was over, Nita, Aleene and others determined this was one spectator sport (?) they wouldn't see again!

I don't know how Warren Bacon fares on water

skis — but he must play a wild game of volleyball. After three accidents on the court in as many weeks he's currently hobbling around on crutches!

More vacation news: Evelyn and Richard Cannon, who have generously entertained at their new pool all summer, managed a week together in San Francisco, minus the youngsters. . . . Norma and Paul Nurches and family visited Margo and Dave Elmer at Lake Tahoe, (taking in some of the shows on the Nevada side of the lake), followed by a week at Newport. . . . Lucille and Jack Washburn and children took their boat to Lake Shasta. Lucille, just out of her cumbersome cast of last March, confined her activity to piloting the boat for the family's water skiing. . . . Frances and Scott McMurray vacationed in Colorado where they visited former Ranch residents and Mothersingers, June Crinkley and Jean Owens of Denver.

Mrs. Vivian Crawford has sold her home at 390 E. Grand View and has purchased an apartment in the "New Leisure World" at Seal Beach. Mr. and Mrs. Sidney Shager have just moved into Mrs. Crawford's home with their daughter, Kay who is celebrating her 15th birthday anniversary today!

Duplicate bridge winners at St. Rita's last week were east-west, first Gertrude Behrens and Mary Barboza, second Phyllis Wentz and Ruth Englert. North-south, first Adelaide Marshall and Joyce Tuchscherer, second Betty Mackie and Florence Morningstar.

More news on the destinations of the college set. Dianne Wilson, Whittier; Judy Jennings, Arizona; Mike Deverian, Riverside; Jan Nash, Occidental; Tom Cowles, Mt. San Antonio; Forrest Switzer, PCC; Steve Saurenman, Redlands; Bill Rittenhouse, Stanford; Bery Fricke, Berkeley. Ann Fricke, L. A. State; Tony Acker, Orange Coast College. These are but a few addition to the list I ran two weeks ago. Would like to hear from readers regarding students I've missed.

OUT OF THE COBWEBS

September 18, 1925
A permanent injunction restraining the City of Sierra Madre from interfering with the operation of the Mountain Glen Healthatorium was denied by Judge Burnell of Department 19, Superior Court of Los Angeles County, at a hearing held Tuesday and Wednesday.

The enrollment so far in Sierra Madre Scholo is 415, according to Elizabeth Steinberger, principal of the school.
September 9, 1943
A dozen Sierra Madre members of the Forest Fire Fighter organization and the U.S. Forest Service answered the call for help Sierra Madre School is 415, when a fire raging over more than 700 acres in the Castaic area got out of control late Friday, most of them remaining at the fire camp Tuesday when the fire was brought under control.

September 8, 1949
Sierra Madre students of the seventh, eighth, and ninth grades begin sessions Monday morning at John Marshall Junior High School in Pasadena — not Woodrow Wilson Junior High, as had been the case last year.

Fire, reportedly started by "boys with matches," burned a portion of a vacant lot opposite 429 Grand View Avenue early Friday afternoon.

September 10, 1953
An old, established firm in Sierra Madre has a new name.
With the installation of a new sign Sept. 1, Grant Ripple is now known as the Ripple Mortuary and

Chapel, according to an announcement by Sterling Ripple, owner.
Typhus reared its head again in Sierra Madre. It was the first new case since May.

'YOUR CITY AND MINE'

THE PLANNING FUNCTION

The next few weeks will concern the three active commissions of the City of Sierra Madre: The Planning Commission, the Parks and Recreation Commission and the Library Board.

The planning function of the City and the part the Planning Commission plays in developing the community is one of the most difficult of all concepts to understand and accept, since planning is based on restrictive law. It hasn't been too many years ago that a man's land was his to do with as he saw fit. Zoning, subdivision laws, planning commissions, master plans — these were unknown words. A person owned land and he used it or subdivided it as he wanted and as he thought it would sell.

Planning came about as a result of urbanization and in recognition of the fact that laws must be written to protect the common good from the detrimental acts of individuals, in land development and use. Most people feel it is unfair to a home owner to permit a boiler factory to move next door.

There are some individuals who disagree with this and feel that zoning laws are too restrictive and have developed too fast and too far, thereby stifling individual rights and initiative, etc. Be that as it may, the laws are in effect and their effect on the community is substantial.

The basic aim of planning is to develop a community which is attractive, economically sound, balanced and able to meet the needs of the people living in the area, both today and in the future.

Planning law has two general purposes: to differentiate between uses or zones (residential, agricultural, commercial and manufacturing) and then to regulate the development of these uses within the areas set aside.

Despite the fact that the planning function is administered by a Planning Commission and interpreted by attorneys and courts its foundation is based in written state and city laws which are applied equally to every situation and person. One reason so many of us come into disagreement with planning at some time, is that we run up against the seemingly inflexibility of the laws.

The planning laws direct everyone to use his property in conformity with the law and at the same time guarantees each person the right to prove that his property is unique and should therefore be allowed to deviate from the law. It is the conflict mentioned earlier between the individual's right and the protection of society. It is in trying to adjust the general rule to the specific problem that differences of opinion occur.

Hermit of The Sierra Madre

By Don Murray

"No politics today," said the Hermit softly. "A friend of mine died and I can't get him off my mind."

I lowered myself onto a flat rock by the cave entrance wondering whether the deceased friend was maybe a deer that had been mistaken for a fellow nimrod and gotten himself shot. The Hermit relieved my curiosity. "The poet e.e. cummings," he revealed.

"The one who made up his own rules of punctuation and capitalization."

I inquired, "He was a friend of yours?"

"He was a friend of everyone who loves beautiful words and hates blind conformity." The raccoon that the Hermit calls, "Bandit" came moseying along and saw that this was on moment to interrupt. The old man said, "And now that e.e. cummings is dead I would like to memorialize him."

"Erect a monument in his honor?"

"In a sense. You know, e.e. cummings explained that he only used capital letters to begin words he deemed important. Hence, always spelled his own name with the 'little' or lower-case letters. He did the same with the personal pronoun 'I', which he wrote as 'i'. Now, if there is an important word in this world today that word is 'Communism'.

The dictionary gives a capital 'C' to Communism when one is referring to a specific Communist party like the Russian or Chinese, or to a member thereof. But the same is not done for 'communism'. Here they favor the little 'c'. Surely this is error. We don't write of the 'Black Plague' in lower-case. Nor of the Black Hole of Calcutta. These were certainly first-rate disasters. Yet they scarcely approach the toll of misery and death already chalked up by the abomination known as Communism. How then can we as supposedly literate people continue to assign a little 'c' to this creeping disaster? e.e. cummings couldn't have. He had too much sense of words — too great a grasp of history."

Many proposals that have been before the Planning Commission recently would demonstrate this conflict. Since it involved a great many people and was well developed the Nuetzel zone change will be used for an example. This property is zoned R-1-15-H, which means it is a single family residential area, requiring 15,000 square feet, 90-foot frontage lots, which also come under the special safety regulation of the hillside area. The applicant, Mr. Nuetzel and his partners, felt that due to the extreme topography that garden type, one-story apartments would provide better land development. The request was for a limited type R-3 apartment zoning.

Excellent discussion was presented on both sides. The proponents argued less cut-off.

Freedom At Any Price

by Henry V. Witty

A sub-committee of the House Committee on Un-American Activities has recently concluded its four-day session in Los Angeles to investigate Communist infiltration into the industries of Southern California. The findings will be issued in the form of a congressional report within a month.

The unfounded attack which is constantly being waged against this congressional guardian of American freedom makes it necessary for this writer to speak out. The purpose of the House Committee on Un-American Activities is to investigate un-American propaganda activities in the United States and "all other questions in relation thereto that would aid congress in any necessary remedial legislation."

The complete and immediate abolition of this congressional committee is the prime target of every subversive organization within our country today. Why? Because every member of the Communist conspiracy and every Communist dupe within the limits of these United States lives in mortal fear of the long arm of true Americanism exemplified by the bite of the House Committee on Un-American Activities.

The crusade against government investigating agencies is not a new weapon employed by organizations and individuals whose purpose is to replace our present form of government with one which would better fit into the Soviet orbit. The American Civil Liberties Union through its Emergency Civil Liberties Committee organized in 1951 is now spearheading the drive to destroy with the House Committee on Un-American Activities. From page 2 of the book, "Does the American Civil Liberties Union Serve the Communist Cause," I quote Francis E. Walter, U.S. Representative from Pennsylvania, Chairman of the House Committee on Un-American Activities: "The report made by the FACT Committee is a very interesting compilation of material. The A.C.L.U. is very active in its campaign to abolish our Committee and we have received numerous letters urging that we investigate the organization."

A Congressional Committee to Investigate Communism (Fish Committee) stated: "The A.C.L.U. is closely affiliated with the Communist movement in the United States and fully 90% of its efforts are on behalf of Communists who have come into conflict with the law. It claims to stand for free speech, free press, and free assembly, but it is quite apparent that the main function of the A.C.L.U. is to attempt to protect the Communists in their advocacy of force and violence to overthrow the government."

The California Committee on Un-American Activities had this to say about the organization: "The A.C.L.U. may be definitely classed as a Communist front or transmission belt organization." A few "Americans" who have felt a common bond with the A.C.L.U. are, and this writer quotes from The Monthly Publication of the A.C.L.U., Number 176, January, 1960, page 1: "The A.C.L.U.'s founding officers and staff were the Rev. Harry F. Ward, Chairman . . ."

Further quoting the same publication on page 2 we find, "The following Board and National Committee members were among those elected during the years 1921-1929 . . . John Dewey, . . . Felix Frankfurter . . ."

The Rev. Harry F. Ward of Union Theological Seminary was for many years an influential figure in the National Council of Churches. Felix Frankfurter was until recently a member of the United States Supreme Court. John Dewey is the father of the so-called "mod-

ern" system of progressive education, the results of which prompted Rudolph Fiesch to write the book, "Why Johnny Can't Read." In 1920 the Lusk Committee, a New York State Legislative investigating committee, invited the Director of the A.C.L.U., Roger Baldwin, to submit a statement of that organization's creed and purposes. This writer quotes directly from "The Crusade Against Government Investigating Agencies," page 8: "It (Baldwin's statement) showed that this group in its fetish-worship of 'free speech' (by its own interpretation) called for freedom to advocate the overthrow of government by force and violence — and even the 'advocacy of murder.'"

Further quoting from the same source, page 9, reveals: "The A.C.L.U. of today is largely a portrait in all its shades and colors of the organization set up in 1920 by Roger Baldwin, Harry Ward and the pacifistic-socialistic group who sponsored it. There has been essentially no change in the character and objectives of the organization — or the spirit of its directing personnel. The one difference, perhaps, is that as our American people have developed an affluent flabbiness with consequent blissful unawareness, A.C.L.U. has correlated a rather substantial backlog of contributing benefactors whose cups of benignity overflowed into currents of support and action they do not always understand. This trusting backlog of intellectual and socialite notables contributes more than just money. They constitute a facade of respectability that serves both as window-dressing and enticement."

This writer has in his file a full page advertisement which appeared in the New York Times, February 22, 1962. It is headlined: "An Appeal to the House of Representatives — Abolish H.U.A.C." Several hundred signatures appear below this appeal including organizational heads, educators and members of the clergy. Some of these leaders undoubtedly are sincere in their convictions; however, in checking the list carefully, I find the same "Soviet America" boys best illustrated by the signature of Rex. Claude Williams who is quoted by Ralph L. Roy in "Apostles of Discord" as having stated, "Denominational I am a Presbyterian, a religiously a Unitarian and politically I'm a Communist. I'm not preaching to make people good or anything of the sort. I'm in the church because I can reach people easier that way and get them organized for Communism." Rev. Williams was cited under oath as a member of the Communist Party on September 12, 1953, before the House Committee on Un-American Activities by ex-Communist Joseph Zack Cornfeder.

An important factor in the success of Communist tactics is the ability to deceive non-Communists into doing the work of the Communists. Be American. Think American. Act American.

Editorially Speaking....

Wait on the Lord, and keep His way, and He shall exalt thee to inherit the land.—Psalms 37:34, The Bible.

What Will It Cost Me?

Should the voters of Sierra Madre approve the Flood Control Bond Issue that is to be placed on the ballot this November, "What will it cost me?" will be the question most asked. In this article we will attempt not only to give you an estimate of what it will cost you, but will also endeavor to show you what it might save you.

The amount of the bond issues has already been set, this will not change, and the issue will be \$100,000 in General Obligation Bonds. The length of time for the pay off of these bonds has not as of this writing been defined (it may have been done at the September 11 council meeting), but for this writing we will say that the issue is for a 10 year period.

Using this amount, and those period for pay off, and taking into consideration the average interest charges for an issue of this nature, it is safe to assume that the bonds would be paid off at the rate of approximately \$13,000 per year.

If we are right in assuming that this will be the rate of pay off, and the valuation remains the same, and we are sure that it will be substantially increased in the next ten years, then the assessment against the property owners will be approximately 7.9 cents per \$100 valuation.

Now it is easy to see that if your property has an assessed valuation of ten thousand dollars your cost for the Flood Control Bonds will be only \$7.90 per year.

Utilities and manufacturing concerns in Sierra Madre carry an assessed valuation of approximately \$2,145,520 and based on the above figures would pay approximately \$1,700 of the issue each year. Business property with an approximate assessed valuation of \$1,150,000 would likewise pay their share which would amount to about \$900 per year, leaving the property owners with the balance of approximately \$10,400, or based on our present population, about \$1.00 per man, woman and child.

Since this is going to solve many of the ills related to Flood Control for the entire City of Sierra Madre, including Skyland, Sunnyside, Baldwin, Lima and the Business District, it seems to us that it is a very small cost for the job it will accomplish.

Now it must be remembered that we will receive approximately \$177,000 of work for this \$100,000 bond issue. The balance of the money having been set aside from other funds and provided for in the 1962-63 tax assessment.

Now, should we not approve the Bond Issue, then it is naturally assumed that the City will do the work as it is needed, and if not done, considerable amounts of money will be used for clean up and temporary work, and eventually the permanent work will have to be done.

It is clearly seen, that should the issue fail at the November election, the Council will have to assess the property owners over a period of years at the rate of 20 cents per \$100 valuation until such time as the work is completed.

The difference here can easily be seen that it is possible that the cost to the taxpayer could be .121 cents per \$100 valuation more, if taken via the Flood Control Assessment route. Besides, the Council must work on a "Pay as you go" basis, and a good many dollars could be used in the meantime, for temporary and clean up work, in the event another catastrophe happens this coming year or years.

It would certainly not be unreasonable to believe that the Council could assess .20 per \$100 valuation for the next five years, raising but \$165,000 and still have \$110,000 of the permanent work to do, as the clean-up last year took approximately \$20,000 of the taxpayers money.

It would be indeed the most economical, that all of work for the passage of this Bond Issue — — — remember it takes two thirds majority of the votes cast, and we are sure there is not a man, woman or child in Sierra Madre that would not be willing to ante up \$1.00 per year to push back the mud and muck if they saw it coming down Sunnyside, Skyland or Baldwin Avenue — — — We do not need any part of the San Gabriel Mountains in Sierra Madre — — — let's vote them out.

Attention Please!

Your attention is called to an article by Henry V. Witty in this issue of the Sierra Madre News and printed on this page.

This article in its entirety was admitted to the Congressional Records and published therein during May of this year, it will be well worth your time to read and concentrate on this article.

Hon. Clyde Doyle of California as he made entry of this article pinpointed it with the following remarks. "Mr. Speaker, I believe that you and all the members will join with me in compliments to Mr. Witty on this splendid treatment of this very difficult, but everpresent problem, that must continue to be given vigilant, vigorous attention."

You will note he closes the article by saying: "Be American. Think American. Act American."

Eppersons Enjoy Vacation in Colorado

Mr. and Mrs. Charles K. (Kathleen) Epperson with Mr. Epperson's mother, Mrs. Lena Williams, and daughters, Suzanne, Denise and Janet, report an enjoyable summer vacation at Lost Canyon Ranch up in the high country at Gunnison, Colorado.

Grandmother Williams with Suzanne, Denise and Janet boarded the train that runs on the last narrow gauge railroad in existence in the United States from Durango to Silverton.

Kenny and Kathleen drove their station wagon and trailer over the new million-dollar highway that runs from Durango to Mt. Rose. They motored over two mountain passes at 11,000 feet elevation and dropped down into a beautiful valley where the town of Ouray is nestled in a geographical area where the landscape, flowers and architecture are much like the small valleys of Switzerland.

At Lost Canyon Guest Ranch, Denise, age 8 and daughter number 3, proceeded to catch the daily limit of rainbow trout (10 each day) out of the Gunnison River, while Father Ken had nary a nibble. Suzanne enjoyed horseback riding and Janet, age 7, picked and hiked in the hills with friends. They're all home now.

Dianne, senior daughter of the Epperson family, stayed home and worked for Pacific Telephone Company in Temple City. Suzanne will attend school at Pasadena High School. Denise and Janet will return to St. Rita's in Sierra Madre.

What this country needs is a car that is afraid of trains.

Celebrates 1st Birthday

Miss Teresa Ann Ward celebrated her first birthday August 28 at the home of her paternal grandparents, Mr. and Mrs. E. Waldo (Madeline) Ward, 273 E. Highland Ave.

Teresa with her mother and father and two brothers, Mr. and Mrs. William (Betsy) Simmons, Billie, 6, and Ward, 2½, drove up from their home in El Centro to spend a week and Labor Day at the family home.

Mr. and Mrs. Goodrich Simmons, paternal grandparents of Teresa and her brothers are former Sierra Madre residents, now living in Solano Beach.

Tennis Lessons Concluded

This summer's tennis instructions offered through the City Recreation Commission concluded last Tuesday, it was reported by Thomas Butch.

Mr. Butch said that approximately 60 persons took lessons, making this summer one of the "most successful" ones for tennis instruction.

Butch states that during the summer there have been 20 weeks of instruction and two instruction sessions. The total number of lesson hours for this period, he continued, is 150.

Bill Boder, who is a member of Anokin's physical education department, was the instructor.

Creative Arts To Be Host Center Sept. 19

Creative Arts Group, 37 E. Montecito and the Ramon Lopez Gallery, 47 E. Montecito will be the host center for the Art Section of the Arcadia Branch, AAUW September 19, 10 a.m.

The first art group meeting of the year is planned to further an appreciation in local artists and art centers. One of their members, Lannea Melzian, a teacher at the Creative Arts Group, has planned an interesting program to include paintings, children's art and a demonstration of flower arranging.

In the adjacent gallery of Ramon Lopez, they will see the Art Hassen show of painting and sculpture. Mr. Hassen, well recognized in America as well as Europe, is represented in the Sao Paulo Museum and has exhibited in the Los Angeles County Museum. Two of his paintings are valued at \$500,000. Mr. Lopez will act as guide and host.

The group plan to meet at 9:45 a.m. at the parking lot north of the Sunfair Market at Huntington Drive and Santa Anita to pool rides.

Following the meeting the group will have luncheon at Eaton's Santa Anita.

If any member needs transportation they are requested to make reservations as early as possible by calling Irene Parker EL 8-0879 or Elizabeth McKown EL 8-5666.

CHATTING WITH some of the guests seated around the fire ring at a recent Polynesian dinner is Clarence Creighton of 661 Canyon Crest Rd. Mr. Creighton, known as the "dean of San Gabriel Valley Food Salesmen," has been employed by a brokerage house, Johnson, Carvel and Murphy, for 51 years. He and his wife have lived in the area for 13 years.

BEING SERVED at a catered Polynesian dinner are Mr. and Mrs. Clarence Teeters. Mr. Teeters made arrangements for the evening's activities.

Diversified Program To Be Sponsored By Regina Tilling Chapter of ORT

Cocktails, an art show, buffet dinner and stellar entertainment are all on the program for the major benefit of the year to be sponsored by Regina Trilling Chapter of ORT on Saturday evening, September 22. The tennis court and spacious gardens surrounding the home of Dr. and Mrs. Morris Furman, 721 S. Madre, will be the setting. The theme of the evening, "Through ORT's Window to Freedom," has been taken from the painting of a multicolored stained glass window, which depicts the 20 countries where ORT (Organization for Rehabilitation through Training) has vocational schools, and which lists some of the 70 modern industrial skills taught. A large reproduction of the window will greet guests at the entrance to the Furmans' gardens. Smaller one were printed on the invitations and also will be part of the table decorations.

An exhibit of paintings, sculptures and ceramics by outstanding Californian, Indian and Israeli artists, arranged under the direction of Barbara Burke Lang, Director of the Manhattan Galleries, will be on view on the tennis court while cocktails are served from 5:30 to 8 p.m. Following the buffet dinner, members and friends of ORT will be entertained by TV star ventriloquist, Rickie Layne and Velvel. Mr. Layne and his dummy friend have appeared frequently on the Ed Sullivan show.

All the funds received from this affair will be used to support ORT's technical high schools all over the world, where underprivileged young people are taught trades, thus becoming self supporting. The hostess, Mrs. Furman, and Mrs. Julius Berlefin, are co-chairmen of the event. Other members of the arrangements committee are Mrs. Jack Resnick, Stanley Pomerantz, Bertram Kellin, Robert Givetz, Beno Gutenberg, Ruth Lehman, Aaron Glaser, David Lee and Nat Motta. Mrs. Irving Burg is president of the chapter. Reservations may be made with the hostess, SY 6-6367, before Wednesday.

Take your problems to Church this week —

THE CHURCH FOR ALL
ALL FOR THE CHURCH
The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Do you suppose Susie wants an addition for her doll family? Or ice cream and cake for supper tonight? Or a new pair of fancy black patent-leather shoes?

I'm Susie's mother, but I wouldn't know! You'd have to have seven league boots to keep apace with her active little mind!

For instance, she'd overheard us discussing our new family policy of having a suggestion box. Susie was determined to get into the act too. It is typical of her, typical of our family. We enjoy doing things together. We believe in unity in work, in play, and in prayer.

We center our family activities about the Church. The children go to Church School—Susie can hardly wait for each Sunday morning—and my husband is active in the Men's Club. I am president of the woman's group in our parish. Yet—it does take a lot of time and effort. But I am never happier than when I am doing church work, because I know how truly worthwhile it is. Don't forget that your church needs workers too! Just as you need the Church!

Weekly Letters to the Sierra Madre News Editor . . .

12—SIERRA MADRE NEWS Thursday, Sept. 13, 1962

Dear Editor:

Just bought today's issue Sierra Madre News — the first since your arrival. I see the "Letters-to-Editor" have been reduced to one. This seems logical since today's paper is devoted to lobbying for fascism. And I do not mean by that for a dictatorship.

I mean that kind of fascism as it originated in Italy. Using anti-Communism as a false front for propagandizing the people for the selfish interests of a few.

By the way, the above is a good description of the Nixon-Chotiner method of smear campaigning. What does Nixon's mother and brother have to do with Nixon and Howard Hughes asks the "out of this world" hermit. Let the electorate answer after they ask themselves, if they needed \$205,000, would the unapproachable, not so charitable Howard Hughes lend it to them even though they were already on their way to bankruptcy?

You are fooling only those with a will to ignorance. Thanks for listening.

—VIRGINIA LUND
EDITOR'S NOTE — Virginia has missed out on some mighty fine reading. Since my arrival we have printed 116 "Letters to the Editor." It seems odd that one or two articles would turn the entire paper "devoted to lobbying for fascism." One would almost think one communist, one leftist or two would brand a whole community as such. Keep the flag flying Virginia.

Dear Editor:

Thank you for returning the pictures. Please forgive us for not writing or calling to compliment you on making a very fine article from the information we gave you about our "Rodeo" life.

Actually, we were waiting, hoping at the same time we could tell you that we won a good one. But, we only placed a fourth in the Santa Barbara Fiesta Rodeo. However, we are leaving this weekend for the Pendleton Round-up in Pendleton, Oregon, and hope to come home with some of the prize money from there.

Again, we wish to compliment you for keeping the facts straight and writing a good authentic story. We were very pleased and proud of the article as it was written.

Thank you very much and we will keep you informed of our future activities and winnings (we, hope) in the

Arcadia

Music Mart Forms
Youth Band . . .

Mr. Ben Course of the Arcadia Music Mart announced today the formation of two youth band groups for young people in the San Gabriel Valley. It will serve as a music outlet for students in private schools and will offer supplemental training to public school students.

The Plebe Band is for beginning band instrument students and for instrumentalists who have played for less than one year. The Ranger Band is for instrumentalists who have played more than one year and for more accomplished players.

The bands will be under the direction of Marie Oliva. Miss Oliva is the Music Mart staff teacher of brass instruments and is also the director of the Li'l Gabriel CAP Cadet Band and the Blue Notes Dance Orchestra.

A meeting of interested parents and students was held on Wednesday, Sept. 12 at 7 p.m. in the Music Mart auditorium. Rehearsals and instruction will begin on Wednesday, Sept. 19. Plebe Band will meet 6:15 to 7:15 and the Ranger Band from 7:30 to 8:30.

In addition to the new youth bands, both private and class instruction is being offered in baton twirling. Miss Joan Wunsch, who is a Champion twirler, will be the instructor. Miss Wunsch is a Ram-ette, drum major of the Li'l Gabriel Cadet Band and former twirler for the Duarte High School Band. Classes will begin at 6:15 p.m. on Sept. 19, and private instruction is by appointment only.

Registration blanks are available at the Arcadia Music Mart. Further information can be obtained by calling Mr. Course at HI 6-3111 or Marie Oliva at HI 6-1161.

Dear Editor:

I should like to respond to the letter which appeared in your "Letters" section signed by Ralph J. Martin.

Mr. Martin is quite right in saying that the old party labels of "Democrat" and "Republican" are no longer applicable and should be replaced by Liberal and Conservative.

However, I would like to comment a bit on his definitions of what liberal and conservative mean.

He begins by stating that "the dictionary definitions are a bit out of step with these terms as they should be understood by voters today." He then proceeds to define conservatives as those who are afraid of various aspects of the contemporary world scene—our sworn enemies, paper promises, uncontrolled spending, phony peace overtures, the U.N.

Following this, for some reason, he quotes the dictionary definition for his definition of liberals. For some reason, the dictionary is not out of step for the liberals. But Mr. Martin forgets that he is defining liberal persons and the dictionary—in defining all aspects of the use of the term—will necessarily be out of step to some extent with Mr. Martin's particular use of the term.

In my opinion, Mr. Martin's first definition (and the dictionary's) "befitting a man of free birth" is quite apt and adequate. The other definitions apply not to per-

sons but to things—such as gifts, allotments, or bequests. His fourth definition is, to use the dictionary's term, archaic; that is, no longer in general use. Why then apply it, Mr. Martin?

And why be afraid of the word "licentious"—which is the word you left out? Is a conservative also afraid to use certain words even when they come from an archaic dictionary definition?

As I have said, I agree with Mr. Martin's statement of the need for a distinction between "liberal" and "conservative." I agree with his first definition of liberal. May I now quote the dictionary definition of conservative? According to Webster's New Collegiate Dictionary (2nd ed. 1953), which I believe Mr. Martin also was using, conservative means (in general), "disposed to maintain existing institutions or views; opposed to change." (my emphasis.) With reference to politics, "Designating, pertaining to, or characteristic of, a political party which favors the conservation of existing institutions and forms of government."

This makes it clear why Mr. Martin chooses to leave this definition out, for according to it, Mr. Martin could not possibly be a conservative. Involvement with attempts at world government, increased centralization of our government, increased spending, and efforts towards peace have been part and parcel of our existing governmental institutions for at least 20 years or more. Were he a conservative—according to Webster—Mr. Martin would be for these existing aspects of our government, not afraid of them. Am I to con-

clude, then, that Mr. Martin is neither Conservative nor Liberal? Perhaps he would like to clarify further how, and with whom, he is aligned.

Very sincerely,
—RONALD LEVY.

Dear Carrot Top:

(Re my EFFECT and AFFECT Letter, August 30).

Sometimes my nouns and verbs disagree and my participles dangle, but I never mix my SHEs and HISes, you changed my HE to SHE but didn't change my HIS.

And what have you done? You've trifled with my AFFECTATION! Whatever became of that TA? You've left me with "fond and tender feelings," while all I wanted to do was to "show a little artificial behavior or pretend."

Now I should tweak your back. My lady affects GOOFY hats. Whoever heard of GOOFY hats? And "in-differents to the INSULT." Much prettier than INSULT. Why don't we change it? Sounds more "en-soul-ing."

Carrot Top, I did not suggest that you BEHAVE yourself; not even that you BEHEAD yourself. Now you BEHAVE!

A paper without a few typographical errors scattered neither and you just ain't no fun at all. Who wants to be a perfectionist? In fact, these little boners pleased me so much that I decided to "take the paper." Check enclosed.

I like the way you misspelled my name. Think I shall chop the Martha off and spell the other part of my name the way you printed it. Sounds so nice and mournful.

Well, now I'll "ring" off.
—BELL NELL.

Dear Editor:

An open letter to the City Council of the City of Sierra Madre:

Gentlemen: Having for many months observed the difficulty and confusion in parking in front of the post office, the Board of Directors of the Chamber of Commerce have voted to urge that you institute angle parking on the west side of Baldwin Avenue from where it is now in effect southward past the post office.

It is the general feeling of the directors that such angle parking is seriously needed to solve the present parallel parking difficulty with its parking limitation. It is the feeling that angle parking would accomplish the following:

1. Fully double the parking space for postal patrons.
2. Make parking easy and simple compared to the confusion and difficulty of the present parallel parking.

3. Completely solve the problem of requiring parked cars in the area to have wheels turned in against the curb because of the grade, a problem that absolutely cannot otherwise be fully solved by any means.

Inasmuch as angle parking is now in effect on Baldwin Avenue immediately south of Sierra Madre Boulevard on both sides of the street, the extension of angle parking on the west side of the street only could in no way materially hinder the use of Baldwin Avenue by passing cars but instead would largely eliminate the present confusion in parking and in that manner contribute to smoother driving on Baldwin.

Dear Editor:

We have been away for over seven months on an extended visit in Europe, and through the thoughtfulness of an anonymous friend, have received the News regularly.

Upon returning to Switzerland after a month's summer tour we were devouring the stacked-up copies of our Squeaks (now particularly old to you!), and came across the minor hassle over the flag for Kersting Court.

While Mr. Levy no doubt means no disrespect toward the loyalty and patriotism of others, our hearts were truly warmed by Grace Webber's letter of the same issue (July 12).

Maybe with such fellow-citizens as the Webbers our Mr. Levy will be encouraged land after a month's summer understanding of those Sierra Madreans—yes, and those scattered over the globe—who experience a mysterious catch of the throat at the strains of the Star Spangled Banner.

We gladly contributed earlier toward this fund, but in case it's not fully subscribed by now, please accept another, a very small token of our personal appreciation of our flag and our home town.

With best regards in your latest venture,
—ED SCHROTZBERGER.

Three-fourths of the area of California is composed of rolling hills, foothills and mountains ranging in elevation from 500 to 14,000 feet.

Ole Bossy!

Some scientists in England have discovered a process to make milk without ole Bossy. They use grass, weeds, and other green stuff. "It looks like milk but it tastes a bit like vegetables," said one. "Quite a bit like cabbage," admitted another. . . . Well, as long as it doesn't have that distinctive taste of horse radish, I suppose it'll pass; even so, I'm going to string along with ole Bossy, by George!
